

NEX.U.® U-VALVE+ FLOW CONTROL UNIT WITH BLUETOOTH AND WIFI

Part No
23851

TECHNICAL DATA

NEX·U® U-VALVE+ FLOW CONTROL UNIT WITH BLUETOOTH AND WIFI

Combined pulse meter, a solenoid valve, screen filter with the electronics required to control the meter. LED display showing the dispense point number and status. Can-bus cable communication and power to the solenoid valve, also supports Bluetooth® communications for connecting to a U·vision or a U·vision+. Supports Wi-Fi® to communicate with other system components. Requires 24 V DC supplied by a U·dat or a U·power module. U·valve+ wired connections use fast connection in/out Can-bus terminals.
