

DOCKING STATION WASTE OIL

Part No
39080

TECHNICAL DATA

DOCKING STATION WASTE OIL

For easy emptying of waste oil drainers. The drainer is docked into the station and when the user presses a button, an automatic evacuation of the fluid is performed. Fast, easy and spill free.

TECHNICAL DATA

Part No	39080
Dimension	581 x 481 x 852 mm
Air connection	6 (1/4") Ø mm (inch)
Voltage	24 V DC
Connection	3/4" (F) BSP
H.S. Code	72089080
