

SPRAYER 10LITRES

Part No
3615F

TECHNICAL DATA

SPRAYER 10LITRES

High-Pressure Compression Sprayer, for forming oil, vehicle cleaning with mildly caustic cleaning agents. Durable stainless steel tank for extra resistance, Viton seals, special oil hose that is flexible at low temperatures, 50 cm continuously rotatable brass spray wand, fine special flat spray nozzle with fine filter. Pressure is generated by using the hand pump can also be filled with compressed air from an external line. NOTE! Not suitable for spray mediums that are corrosive to brass or stainless steel.

TECHNICAL DATA

Part No	3615F
Maximum pressure	0,6 (6) MPa (bar)
Pump	Compressed air / hand pump
Volume	10 l
Weight (Gross)	5,43 kg
H.S. Code	73102990
