

PRESSURE RELIEF VALVE 60BAR BRASS

Part No
28625

TECHNICAL DATA

PRESSURE RELIEF VALVE 60BAR BRASS

For protection of equipment against system pressure increase due to heat expansion. (1 °C increase in temperature can cause 1,0 MPa, 10 bar increase in system pressure). Our 3:1 and 5:1 oil pumps are fitted with a pressure relief valve as standard.

TECHNICAL DATA

Part No	28625
Maximum pressure	6 (60) MPa (bar)
H.S. Code	84139100
