

## CONTROL PANEL FOR DRUM OR TANKS

Part No  
23430

## TECHNICAL DATA

### CONTROL PANEL FOR DRUM OR TANKS

Protects the pneumatic pumps from dry pumping and the waste oil tanks from over filling. The panel can handle 4 different pumps/tanks at the same time. On the front of the panel there are 8 lamps, one stop and one alarm per drum/tank with test button. Two levels for each drum/tank. In case of inflammable fluids, the unit must be completed with Model 23187. The unit can be connected to the OriLink® system. (230 VAC, Solenoid Valve 24 V DC).

#### TECHNICAL DATA

Part No	23430
Voltage	230 V AC
Power consumption	0,8 A
H.S. Code	84715000
