The relay 23167/53167 can be used together with TCM 23408/23430/53408/53430 when more than two waste oil pumps is to be controlled from the same TCM port. See example 1

The relay can also be used together with TCM 23408/23430/53408/53430 when electric pumps are used. See example 2

Example 1

Controlling 3 or more waste oil pumps/solenoid valves, from one port of the tankmodule.

Example 2

Controlling a 230 V ~1-Ph electrical pump using tank module 23408/23430/53408/53430 and relay box 23167/53167
